NEWSFLASH

We are pleased to announce that the impact factor of the European Journal of Public Health has risen sharply again from 1.481 to 1.910.

1. EUPHA – ASPHER conference 2008

The registration for the Lisbon Public Health Event is now online (www.eupha.org). Hotel accommodation can be directly booked at www.healthinnovation2008.com.pt

The preliminary programme will be available online at the beginning of July 2008.

2. Job vacancies

Assistant professor European Public Health

University of Maastricht (2 places available)

Job description

AT 2008.164 Ass. professor (UD) in European Public Health f/m 38 hours a week. We are looking for candidates who can contribute to the department mission through teaching in (English taught) EPH programmes at both levels (BSc and MSc) as well as through research work to be published in international peer-reviewed journals.

Requirements

Doctorate

- (nearly) completed a PhD thesis in Public Health or related discipline;
- experience with empirical research (quantitative and qualitative);
- already published in international peer reviewed journals;
- an understanding of European Public Health Issues;
- networking competences

Organization

Universiteit Maastricht International Health

Universiteit Maastricht (UM) the youngest university in the Netherlands, is renowned for its unique, innovative, problem-based learning system, which is characterized by a small-scale and student-oriented approach. Research at UM is characterized by a multidisciplinary and thematic approach, and is concentrated in research institutes and schools. Currently UM has around 11,500 students and 3,000 employees. Reflecting the university's strong international profile, a fair amount of both students and staff are from abroad. The university hosts seven faculties: Medicine, Health Sciences, Law, Economics and Business Administration, General Sciences, Arts and Culture, Psychology and one University College.

Within the FHML the Department of International Health is the first responsible department for the (English taught) bachelor programme European Public Health (EPH). A subsequent master programme EPH is being developed. Both programmes are based on the well known university wide Problem Based Learning (PBL) approach.

Conditions of employment

Salaryscale 11.

Maximum salary amount in Euro's a month 4284

Employment basis: Temporary for specified period

Duration of the contract: 4 years. Maximum hours per week: 38

After the temporary appointment for tenure.

ISARE is looking for a collaborator

- With at least a bachelor degree in communication or in public health or with 3 years experience in these fields.
- With a good writing & communication ability in English – able to speak French

The responsibilities in the project will include

- Production and editing of a newsletter
- Networking activities between health observatories in Europe
- Seminar organisation
- Report writing
- Contribution to website development (web experience will be desirable)

Part-time : (17-20 hours a week) for 2 years

Working place : Mons – Province de Hainaut - Belgium

Application

Send a CV and a covering letter to:

Observatoire de la Santé du Hainaut

Luc Berghmans Director

Rue Saint-Antoine, 1

7021 HAVRE

Closing date for application : 31th of July 2008

An interview session will be organised on 19 th of Augustus.

Information

3. Interesting news:

European Portal for Action on Health Equity

Website: <http://www.health-inequalities.eu/?uid=f50300c73e2b51ce71766a9d2972f60d&id=home>

This Portal is a tool to promote health equity amongst different socio-economic groups in the European Union. The Portal includes information on policies and interventions to promote health equity within and between the countries of Europe, via the socio-economic determinants of health.

The portal is a host to:

- Country Profiles listing the main policies, actors and tools developed to address health inequalities on a national level.
- Database of Good Practices and Innovative Approaches to reducing health inequalities.
- EU Policy Section with Case Studies to illustrate how EU Policies and Programmes can affect health equity at the national level.
- Health in all Policies Section with examples of how other policy areas can contribute to greater health equity, and mechanisms to achieve this.
- Relevant links related to the issue of health inequalities

European Medicines Agency (EMA)

The European Medicines Agency (EMA) has published a draft guideline on **follow-up of patients administered with gene therapy medicinal products'** (EMA/CHMP/GTWP/60436/2007).

The document is available here:

<http://www.emea.europa.eu/pdfs/human/genetherapy/6043607endraft.pdf>

This guideline addresses the principles for follow-up of patients administered with GT medicinal products in order to detect early signals of delayed adverse reactions, to prevent clinical consequences of such reactions and to ensure timely treatment and to gain information on the long-term safety and efficacy of the intervention.

Please provide any comments you may have to the secretariat of the Gene Therapy Working Party (GTWPsecretariat@emea.europa.eu) by using this template:

<http://www.emea.europa.eu/pdfs/human/regaffair/submitcomment.doc>

Please note that the deadline for submitting comments is end of November 2008.

Please notice that the AdRisk project published a newsletter. **The sixth issue of the AdRisk news about the International Workshop on Media and Tool Development** organized within the context of the AdRisk Project in Vienna on April 7-8 2008.

AdRisk offers you the possibility of making these experiences available and lessons to be learned for third persons through its website. Do not hesitate to come and visit it, www.adrisk.eu.com and feel free to send us any feedback, comment or suggestion you deem useful for improving and helping us to achieve the goals of making adolescents' life a bit safer.

European Child Safety Alliance

European Association for injury prevention and safety promotion

In 2008, the Child Safety Action Plan II was launched. This plan includes the preparation and dissemination of so-called Summary European Report cards in 2009. In November 2007, both associations launched a number of key products on results of the first phase of the Child Safety Action Plan. These are available on their website (www.childsafetyeurope.org) and include:

- Child safety report card for Europe: summary for 18 countries
- Final report action planning for child safety
- Child safety report card 2007: The Netherlands

Health inequalities: progress and next steps

UK Department of Health - 9 June 2008

This document outlines the Government's approach to hit the 2010 health inequalities Public Service Agreement targets, assessing what has and has not worked, and setting the direction of travel beyond 2010. The partial equality impact assessment sets out some of the current health inequalities and potential interventions to reduce and eliminate these inequalities.
